07/08/2022	<u>492</u>	ORAL ORDER: The parties have notified the court of a dispute regarding PX547, one of IOENGINE's proposed trial exhibits. PX547 will be treated as admissible so long as the word "application" is redacted from the exhibit. Assuming there is no further elaboration on that exhibit suggesting that it indicates that the MediKey device performed any particular function, see Dkt. No. <u>400</u> at 17, the introduction of PX547 will not have the effect of opening the door to evidence regarding the disappearance of the MediKey prototype. In light of IOENGINE's representation that the document will be authenticated by Mr. McNulty, PX547 will be deemed admissible over an authentication objection as long as Mr. McNulty is able to authenticate it satisfactorily. Any concerns on Ingenico's part regarding the exhibit's authenticity can be raised on cross-examination. Signed by Judge William C. Bryson on 07/08/2022. (dds) (Entered: 07/08/2022)

07/21/2022	<u>504</u>	ORDER, Because the jurors verdict disposes of all justiciable claims, and the issue of inequitable conduct relates only to Ingenicos affirmative defense of unenforceability, the issue of inequitable conduct should not be briefed in the parties post–trial submissions. If adjudication of that issue becomes necessary in light of my rulings on the post–trial motions or a ruling from the Federal Circuit, I will set a schedule for proceeding on the issue of inequitable conduct at that time. In the parties letter, IOENGINE indicated that it did not have an opportunity to review the proposed form of judgment offered by Ingenico. Id. at 2. The parties are directed to meet and confer on the proposed form of judgment. The court will await the results of the parties meet and confer before entering judgment on the verdict.
